## Water Reflection and Echo

Be inspired by the moon  
Be moved by the soft sweeping—cool breeze  
in the night.  
Believe in even the smallest hinge  
of your palm  
Let the reflection on the water  
Be carried in the pool of light  
in your eyes  
Even a grain of sand can make  
You smile if you look at it just  
right.  
And a dream can give you wings  
to fly
